Option to use without standard accessories

Has a stainless steel body

Ability to easily discharge boiler that can turn 360 degrees

Product Information:

Technical Specifications

Boiler Type	Stainless Steel Boiler
Voltage	220-50 (V-Hz)
Motor Power	4800 Watt
Motor Quantity	3
Turbine Type	By-Pass two stages
Boiler Capacity	75 Liters
Air Flow	8000 l/min
Size	22-60-105 cm
Weight	30 kg.

- A- 1 A1: Top cover
- A- 2 A2: Power buttons
- A- 3 A3: Motor protective sponge
- A- 4 A4: Buoy
- A- 5 A5: Defoamer sponge

- A- 8 A7: Moving wheel
- A- 9 A8: Carrying handle
- A- 10 A9: Latch
- A- 11 A10: Boiler handle
- A- 12 A11: Boiler vacuum inlet
- A- 13 A12: Stainless boiler
- A- 14 A13: Carrier car

Parts A-14, A-15, A-16, A-17 are not included in this product.
